is a latin group made up of five New Yorkers Carlos Frias, Luis Batista, Andy Collazo, Alberto Diaz, and Antonio Rodriquez. This group is bringing a new mix of rock, jazz, and danceable rhythms of salsa combined into one. It was a very unique sound and definitely danceable. The group was formed in 1999 in Washington Heights, NY. If you missed Their performance @ VIP night-club you definitely missed a night full of live music featuring different instruments for example the piano, congas and the vocals of Alberto Diaz with his guitar. If you appreciate live bands and feel the difference in the atmosphere and the energy of live music when you dance you definitely missed a great band. I think SoulSa was definitely working it live at VIP. It was a treat to have them in the Washington Area. Check out the Pictures of the band and dancers at VIP night-club.
